NEW-JERSEY GETS IN LINE.

REPUBLICANS CARRY THE ELECTIONS.

JERSEY CITY IN SAFE HANDS AT LAST-THE RE SULT THROUGHOUT THE STATE.

The charter election of Jersey City, held on Tues day, was not fully completed until the final returns were filed with City Clerk Scott yesterdry. Then it became known positively that the Republicans and achieved a victory no less important than the victory won a year ago when Mayor Wanser was elected indeed, the triumph is in a sense more Important because it enables Mayor Wanser to carry out the reforms he had decided upon. The majority for Renher Simpson, as Aldermen-at-Large, over Charles W. Alle is 677. Mr. Simpson, as president of the Board of Aldermen, will be excepted a member of the Board of Finance. There are now two Democra's and two Republicans in the board beside Mr. Allen, and on May I the Board will be Republican. It will then be able to limit the expenditures of all the boards under Mayor Warser's direction notif he can secure a Republican majority in each of the city boards. This e will be able to do next spring., If not sooner, for the remaining three years of his form the entir city government will be under Republican control.

The Republicans also secure the Board of Aldermen the only elective board in the city. They carried three of the six districts on Tuesday, and the new board will be composed of six Republicans, five Demo erats and one Independent. Even if the latter should vote with the Democrats, Mr. simpson as president of

the board will have the controlling vote.

The new Board of Freeholders will be composed of four Republicans and seven Democrats, the completed returns from the Elevente District showing the election of George Schwartz over Dennis Nootan

Robert Davis, the Democratic findson "Bass," accounted for the defent as follows: think the Democratic defeat is the result of Govern Wert's action in reference to Hudson County matter-If the Governor had acted like a Democrat when the hills to strengthen the Democratic party in this cits were before him, I think Allen would not have been ALARM IN THE CITY OF CINCINNATI-DAMAGE | defeated But we have been beaten and that all there is about it. No, I don't think the attachment of the state of the st on Mayor Wanser had anything to do with the defeat. I don't think that the people voted for Reube simpson simply because they like Mayor Wanser, an I don't think that simpson's election means that the people of Jersey City have indorsed Wanser. The Democratic party will attend to Mayor Wanser. The thing that helped very ninea to defent us was the fact that the Democrats did not all come to the polto vote. They though Allea had a sure thing Mr. Davis said he didn't believe the stories that County Clerk Dennis McLaughlin's friends knifed the ticket The clerks in the City Collector's office were safe, be sald, because O'Nelli has the appointing power; the Mr Davis sald h

The Republicans-elected the four councilment, two members of the Board of Freeholders, the School Commissioner at Large, a School Commissioner in the Board of Education and a Water Commissioner, holding the majority in that department of the city.

than American borses. I saw many of the aged horses, but as a lot they do not excel the American norses. I funcy that our better class of horses excel the English horses in general characteristics. I saw many of the two and three year olds race. It saw many of the two and three year olds race. In England, like America, only the poorer horses race is the early suchaz. I am subsided with American horses, and am perfectly willing to keep the horses I have. I would not care to exchange for any of the horses I saw over there. I mean the rule, not the exception."

Mr. Walcott visited many of the private training establishments in England. "I was surprised at the elegance of the quarters occupied by the trainers and jeckeys," he said. "They are a well-fet class of men and show it plantly. I elsified Colonel North's establishment and saw his horses. Newthorps is as time a Fooking horse as any I saw in England. When ashed ahead his ophion of the racing situation in this country, Mr. Walcott said he did not know how affairs stood at the present. "I think," he added, "the present season will be one at the most successful in the history of the turf. If the city poolfroms are kept closed, and it books as if they were closed forever, there is no dento about the success of the trackes this year. At Mohammith Park I intend, with the help of nit assistants, to give the public first class facing. The Monmouth Association will not tolorate anything that is not straight. If there are any suspicious face, the persons who are suspected of crookedness can easily race resembere. If there is opposition racing to flat at Monmouth Park there will be time enough to decide on what unconsures to take when it comes. The Monmouth meeting was conducted under great difficulties last year. Flury for their patronage. I asked Secretary Crickmore If he received any entires for the stakes at Monmouth 1 ark. Mr. Crickmore sid a few thoneand, but I could shand several hundred more.
